

Acoustic Infrastructure Upgrades in Territory Schools

4 March 2021

The Territory Labor Government is investing \$1.65 million in acoustic upgrades in Territory schools to support high-quality and inclusive education for students.

Improving the acoustic quality of the classrooms makes it easier for our children to learn and hear.

75 classrooms across the Territory are set to receive these works, with a contract for tenders to be released shortly, supporting local jobs.

The first tranche of 20 schools are in remote parts on the Territory and include:

- Arlparra (Utopia) School
- Gapuwiyak School
- Gunbalanya School
- Maningrida School
- Milingimbi School
- Shepherdson College
- Tennant Creek Primary School
- Elliott School
- Nganmariyanga School
- Alpururulam School
- Borroloola School
- Ntaria School
- Kalkaringi School
- Papunya School
- Lajamanu School
- Alyarrmandumanja Umbakumba School
- Angurugu School
- Barunga School
- Yuendumu School
- Ngukurr School

This funding comes in addition to the \$5.2 million Building for Inclusion funding announced in January 2020, where 21 urban classrooms were fitted with specialist amplification systems, designed to support students with hearing difficulties and those who need additional support to focus in class.

These projects support the Territory Government's Framework for Inclusion 2019-2029 program to building an inclusive education system that supports students and ensures they have access to infrastructure that allows them the opportunity to engage in quality education services.

Quotes from the Minister for Education, Lauren Moss:

"The Territory Labor Government is investing to ensure every child, no matter where they live, or what their circumstances are, has an equal access to a high quality education.

"We understand that for many Territory children, hearing loss or compromised hearing ability can lead to disengagement from the education system.

"These hearing amplification systems will see improved engagement in learning in classrooms across the Territory, which in turn will lead to improved development not just academically, but socially.

"By putting in place a strong, supportive and inclusive education system, we are helping to ensure no child is left behind, and building brighter futures for the Territory."
