BUStopping the Pandemic!

5 October 2021

Danila Dilba and AMSANT are happy to launch, along with Central Australian Aboriginal Congress in Mparntwe/Alice Springs, a new look to our bus services.

Vaccination messaging!

“As we all step up our efforts to vaccinate as many people as we can, we figured our messages should be taken to the streets,” AMSANT CEO John Paterson said today.

“Our messages are clear: we want to protect our Elders, our Kids and our Communities. We urge everyone in Darwin to take a look at the buses, and go and get the jab.”

The BUStopping the Pandemic campaign was part of the blitz to increase vaccination rates in the Greater Darwin region and central Australia.

“We are aiming high, we want to achieve 90%+ double vaccination for everyone—with a particular push on getting to the most vulnerable in our community,” said Mr Paterson.

John Paterson also welcomed the involvement with BUStopping the Pandemic through Congress.

“Cuz Congress features prominently on two buses in Mparntwe/Alice Springs—with the same message: “Get Vaccinated!”.
